Good, all of that is what I was expecting but I wanted to be sure. I just noticed in my email to John that I said "final" report but I meant that as the ultimate report of the pilot study, but in a draft version for EPA to review. I think we're all clear now. Thanks!

Regards,
Janette

Hi Janette-

I polled the troops and the draft report of the Pilot Study that is coming to you in mid-May is a full report, not just the data. Also, the plan is to include it as an appendix in the CMS when we get to that point.

Please let me know if you have any questions.

Stay healthy,
Kathleen

Hi Kathleen. Thank you for talking with me yesterday and explaining the recent changes at Wood. I'm forwarding a message I had sent to John last week (b) (6). Also, I'm assuming you will be sending us a draft for review instead of final.

Thanks,
Janette

Subject: pilot study report reminder

Hi John. I saw in the March 2020 progress report sent today that you are, "currently planning on compiling the results of the CO₂ Pilot Study and submitting to EPA by May 15, 2020." I'm glad to hear that this is progressing but that statement wasn't clear to me. It sounds like you might be planning to send some results instead of a full report. So I wanted to remind you that EPA is expecting to receive the detailed final report as described in Section 5.0 of the pilot study work plan instead of waiting for it as an appendix to the CMS report.

Let me know if you want to talk about this.

I hope you are staying well.

Regards,
Janette

John,
I'm glad to hear the good news about the AQTESOLV software installation. As you and I talked about recently, EPA wants to review the pilot study report sooner rather than waiting for it as part of the CMS report later. It still would be an appendix in the CMS report, and it shouldn't be additional work for Wood, you'll just be submitting it sooner. We want to know the final results before we move into the CMS since we're expecting the CO₂ injection to be part of the remedy.

Regards,
Janette

Janette:

Attached is the PDF of the September 2019 Monthly Progress Report for the Container Properties/Formal Rhone-Poulenc site. Hard copies are being delivered to EPA and mailed later this afternoon.

Please let me know if you have any questions.

- John
